Undeniable financial strength

You are choosing a company with a long history of undeniable financial strength. While many insurance companies have seen their ratings fluctuate, our annuity companies received:¹

- An affirmation of an "A" rating by A.M. Best
- Two upgrades since 2007 to "A+" by Standard & Poor's
- An upgrade to "A2" by Moody's

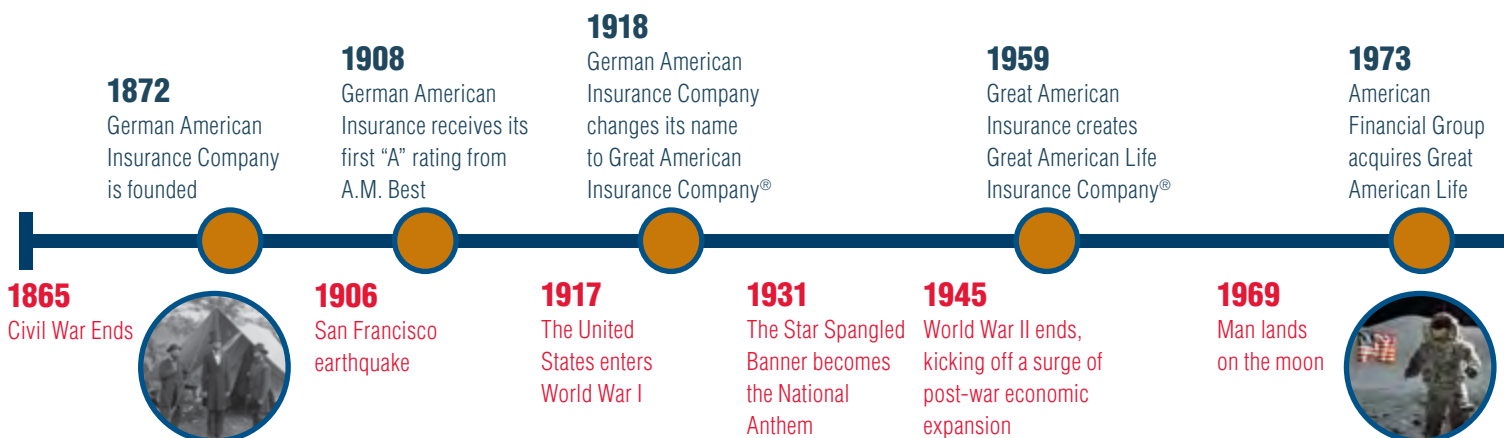

A.M. Best A (Excellent)

Standard & Poor's A+ (Strong)
Affirmed 6/24/2013

Moody's A2 (Stable)
Great American Life Only. Affirmed 4/23/2013

Great American Life has been rated "A" or higher by A.M. Best for more than 35 consecutive years, and Annuity Investors Life has been rated "A" or higher for nearly 20 consecutive years. This rating indicates an "excellent ability to meet their ongoing obligations to policyholders."

More than 140 years of experience

Many key achievements have helped us maintain our strong ratings including:

- **Experienced management team**
- **Solid operating performance**
- **Continued record levels of capital.** This means our annuity companies have the financial backing to continue to grow and weather the inevitable swings in the financial marketplace.
- **High risk-based capital level.** All insurers are required to maintain a minimum level of risk-based capital, which is a certain amount of capital needed to support their business operations while writing contracts. Our high risk-based capital level significantly exceeds this requirement.

Maintaining our strong capital positions means that we will be here to serve you in the long run.

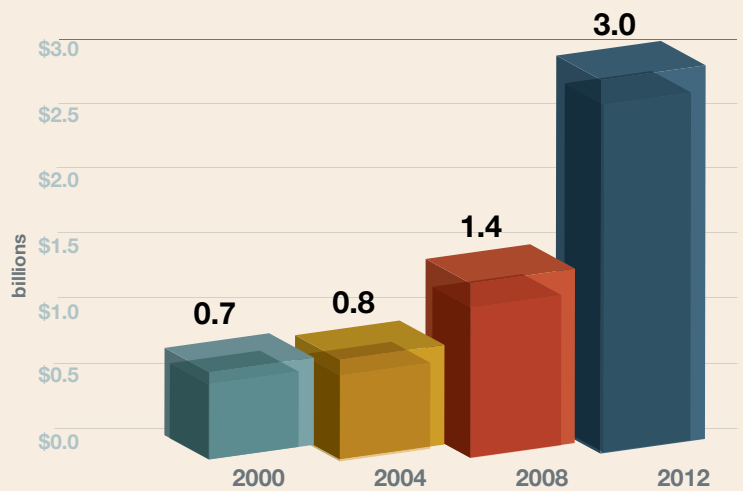

A long-term commitment

Great American Life and Annuity Investors Life are subsidiaries of American Financial Group. AFG is publicly traded on the New York Stock Exchange and Nasdaq Global Select Market under the symbol “AFG”, and has more than \$39 billion² in assets as of December 31, 2012. Total annuity premiums for our insurance companies have quadrupled during the past 12 years. We believe this premium growth during an unpredictable economic environment demonstrates our continuing commitment to providing annuity products that can help you reach your long-term goals.

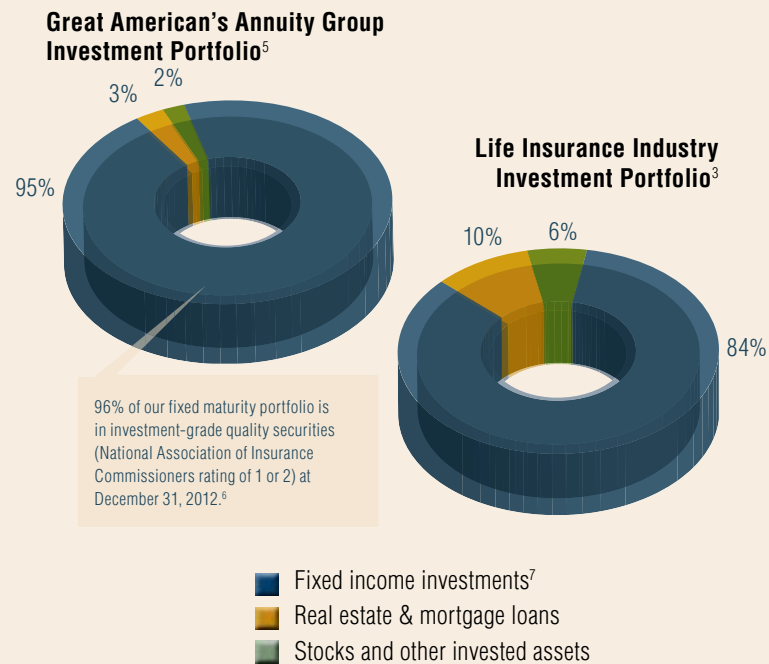

A long-term investment approach

Great American’s Annuity Group maintains a liquid, high-quality investment portfolio that has produced a predictable stream of investment income. Fixed income investments comprise approximately 95 percent of invested assets (compared to the insurance industry average of approximately 84 percent).³ We believe this investment approach provides financial stability that you can count on now and in your retirement years.

A great American family

In 1940, a man named Carl Lindner opened a cash-and-carry dairy market with his father, sister and brothers. The success of this single storefront would launch his career as a self-made businessman and entrepreneur. He parlayed this business sense into interests in the banking and insurance industry.

In 1959, Mr. Lindner founded American Financial Group, and in the 1970s, AFG acquired Great American Insurance Company®. His sons Craig (left) and Carl

joined him in the enterprise, and have spent their entire careers helping to build AFG into a premier specialty insurer and annuity provider. Today, Craig and Carl serve as Co-Chief Executive Officers. As

AFG has grown, the Lindner family has committed the company to creating value for clients and shareholders, providing quality products and services, and remaining financially strong.

Because of Mr. Lindner's beginnings, he and his family recognize the importance of giving back. Throughout the city of Cincinnati, the family's philanthropy is well known, and you can find the Lindner and Great American® name on YMCAs, university buildings and arts organizations. We believe our rich history of corporate citizenship ultimately serves the best interests of our employees, clients and shareholders.
